

## Wholesale Opportunities

Plus Wholesale now offers selected companies the opportunity to retail our range of EasiMat products.

This document provides a description and wholesale pricing for each product.

## EasiMat – Floor Mats

This is the highest quality product available for stable flooring which will improve horses comfort and help reduce the rising cost of bedding.

The mats are made from the highest grade EVA (mixed with rubber compound) which makes for a more comfortable bed for a horse.

EVA is a foam material which cannot collapse or go hard and has greater thermal insulation than the majority of rubber mats. It also means they are light at approximately one fifth of the weight of a hard rubber mat.

Our EasiMats are also built to last and have a **10 year manufacturer's guarantee**.

EasiMats have been manufactured with the horse in mind to provide a permanent, soft and insulated floor so owners can safely reduce bedding without compromising their horse's comfort.

The top surface has anti slip tear shaped bubbles. The underside raised disks that are designed to aid drainage. Please see pictures below.

Features include:

- Improves hygiene
- Easy to fit
- Anti Fatigue
- Reduces mucking out time
- Save £'s on bedding
- Protects against injury
- reduces occurrence of capped hocks
- Reduces dust in stable- fewer respiratory disorders
- Lightweight – easy to lift to clean
- Not affected by urine or disinfectants
- Does not retain moisture
- Non toxic and non absorbent
- Strong light and environmentally sounds materials
- Mats Needed Stable Sizes:
  - 5 mats for 12ft x 10ft (3.64m x 3.05m)
  - 6 mats for 12ft x 12ft (3.64m x 3.64m)
  - 7 mats for 14ft x 12ft (4.27m x 3.64m)
  - 8 mats for 16ft x 12ft (4.88m x 3.64m)

## EasiMat – Wall Mats

EasiMats are the highest quality wall mat available for stabling which will improve horse comfort and help reduce vet bills.

This is a multipurpose mat, which can be used for lining of stable walls, horseboxes, kennel flooring or trailer sides. It helps take stress out of travelling and reduces muscle fatigue.

Each Mat is 6ft x 4ft (1.82m x 1.22m) x 10mm thick but being made from EVA is light, weighing in at only 3.7kg so will save you money if used in horse trailer as will reduce the overall weight you have to pull. (Traditional hard rubber mats of the same size typically weigh 15kg+ each)

## Pricing

Plus Wholesale offer two tiers of discount structure depending upon the annual volumes achieved.

For retailers who purchase up to £10,000 per annum the discount rate is 20% and for those above £10,000, the discount rate is 25%. Once a retailer has achieved sales of £10,000 within one year, the higher rate is applied for all orders going forward.
